HAVAS AGENCY

Rome, 21st.

The anniversary of the entry of the Italian troops into Rome was celebrated in this capital and other cities of the kingdom amidst greatest enthusiasm and order.

Paris, 22nd.

Government of Bulgaria has passed a circular to all the Powers announcing its intention of annexing Roumelia, with the consent of latter country, forming one principality with Chambers elected proportionally from both.

Palermo, 22nd.

123 deaths from cholera here yesterday.

London, 22nd.

Powers have decided on nothing yet with regard to note from Bulgaria announcing annexation.

There is a desire to agree on some joint action in the matter.

PRESS TELEGRAMS.

London, 18th—According to a telegram from the *Standard* correspondent in Madrid, the Spanish Government have decided to expend considerable sums in the construction of fortifications for the coast and in the purchase of warships and swift cruisers. For this purpose a war loan will be immediately voted. There can be no doubt that, in view of the national excitement, a sum ten times as large as that which will be asked, could be obtained.

London, 19th — Telegrams from Manilla announce the formal occupation of Yap by the Spanish troops.

Berlin, 19th—The German papers severely comment on the difficulties existing between France and Morocco.

The *Cologne Gazette* states that the German Minister in Morocco has been recalled to Varzin, for the purpose of arranging with Bismarck as to the attitude to be assumed in the event of a French invasion.

St. Petersburg, 19th—The British Envoy Extraordinary arrived to-day.

Commenting on the settlement of the Afghan question, the *Novoie Vremya* states that the settlement is merely conditional; that British statesmen should look upon the arrangement as a proof of condescension from Russian diplomacy, and that Russia will proceed in accordance with her own interests.

Dublin, 19th—The Nationalists have decided to proclaim Mr. Parnell candidate for College-Green at the coming election.

London, 19th — Mr. Gladstone's manifesto does not appear to satisfy the Liberals. On the other hand, the Tories express great satisfaction.

Mexico, 19th—President Diaz's Message is a most voluminous document, and has created great interest in banking and railway circles. No allusion is made to the new Customs' Tariffs, nor to the situation of the banks. Railway and steam navigation companies express much surprise at the silence in their regard.

The Message begins by an allusion to the praiseworthy attitude of Mexico at the time President Barrios endeavoured to consolidate the Central American Republics.

San Francisco (California) 19th—The Board of Health of this city have enforced the severest quarantine regulations with regard to vessels from Mexican ports on the Pacific, where at the present moment yellow fever and other diseases are most prevalent.

London 18th—Telegrams from Naples report an earth-movement felt in that city during the space of eight seconds.

London, 19th — A collision took place between the steamers Dreda and Dolphin, off the northern coast of England. Seven of the Dolphin's crew were drowned. This steamer was bound for Havre.

Telegrams from Palermo report a panic amongst the inhabitants of that city in consequence of the terrible ravages of cholera.

Boston, 18th—Mexico 7 o/o Bonds are quoted at 41⅜ ordinary Bonds at 7¼.

London, 18th—The Doncaster Cup, run to-day was won by Mr. W. I'Anson's Hambledon; Estonmouth (?) second, and Blue Grass third.

New York, 19th—The English cutter Ginesta recovered her prestige by a brilliant victory at the regattas given by the New York Yacht Club.

Saladillo, 21st—The Italian Mutual Aid Society celebrated the 20th September with the greatest splendor. Soirees, balls, banquets, etc., were given. The most extraordinary enthusiasm prevailed. No disturbance, however, occurred.

Montevideo, 22nd—An evening paper states that General Santos, on the expiration of his term of office, will apply to the Chambers for leave to take a trip to Europe.

The Italian festivities gave 2000 dollars. General Santos has offered two thousand dollars more for the Italian Hospital.

The Galicia passengers will be out of quarantine next Friday.

The wife of the editor of the *Siglo* is very seriously ill, the doctors despairing of her recovery.

Nothing has been learned yet from Dr Pellegrini who is still in quarantine on Flores Island. Nevertheless it is announced that he will not accept the seat in the Cabinet which will be offered to him.

THE NEW PARTIDOS.

Governor D'Amico's decree, calling into existence seven new 'partidos' with a view to create towns, and colonies, establish local authorities, and give to those vast districts proper boundaries and jurisdiction, is a measure which almost passes unnoticed, yet, if regarded in a proper light, it is one of the most important steps the La Plata Government has ever taken, and if properly carried out, will in a very few years more than double the wealth of the Province of Buenos Ayres.

In our last we described the 'partidos' Patagones and Colorado, two immense districts, covering an area of 900 square leagues, and without a single town or centre of population save the little struggling village of Carmen de Patagones, on the river Negro. We do affirm that in the whole extent of these two 'partidos' of 900 square leagues there are not 900 squares of land under tillage, yet there are spots in those districts admirably suited for colonies, country towns, and even sea port towns, but until now all this immense district has been the Central Asia of Buenos Ayres. Now, let us hope there will be a change in the right direction. The Provincial Government will, we believe, soon sell off at auction its hundreds of leagues between the sea coast and the fifth meridian and the rivers Colorado and Rio Negro, and this will put a new stir into things down there. Moreover Governor D'Amico is determined to start some towns on the magnificent sea coast, where the superabundance of fish is such that at the hauling in of a single net we have seen more fish brought ashore than would fill a bullock cart, and we call Governor D'Amico's attention to this important item of Provincial wealth.

Without seaport, towns, and fishing industries we can never hope to have good sailors, yet with such a magnificent sea coast, such as Buenos Ayres possesses, and with such maritime increment as the Italian, the Government of Buenos Ayres might boast of more sailors and fisherman than even Norway. The fact of the matter is, this country is so rich that we neglect many of the greatest resources of the Nation. Hitherto we have slept, and the rich pasturages of half a dozen inland partidos, have proved ample for the Government and for the people, but things are changing fast in the Plate, soon we shall have an *Ostende* of our own at Mar del Plata, soon we shall have cargoes of Patagones salt selling in the Plaza Once alongside Tucuman sugar and Valiente Puntano wine soon we shall have our own bacalao from Brightman's Bay on sale at every almacen, and we can pay no higher compliment to Governor D'Amico, than to salute him as the parent of this great movement, which once fairly started will outstrip the rich but sluggish pastoral industries of his province.

In following up this decree creating so many new partidos, our readers will come upon friends and familiar names pioneers, who trusting to the country fearlessly invested in lands in the most remote districts all these splendid properties will now be called into new life and existence, and will return one thousand fold to the investors, most of them, we are proud to say, are some of our oldest subscribers, and if it be allowable to judge a paper by its subscribers, then we may safely affirm that their prosperity and success is reflected in the columns of this journal.

The new Partido Puan has an extent of 351 square leagues and is bounded as follows:—On the North East by the Partido Adolfo Alsina and the property of Mr Edward Casey (Curamalan) South East by Bahia Blanca, Sauce Cairo, and Partido El Colorado, and by the estancias Gregorio Soler, Jose Anasagasti, A de la Torre, A B de Soler, B and P Graciarena, A Bourdo, F Losa and Thomas Lovis. On the West by the 5th meridian.

THE GONZALEZ RAILWAY.

Dr. Lucas Gonzalez has indentified his name with a new system for railway construction which has met with the fullest approval of Government, and now has been sanctioned by Congress. On previous occasions we have explained this financial combination which has resulted so favorably in the construction of the Colonies Railway in Entre Rios from Parana to Gualeguaychu.

The debate in Congress on last Monday on this subject is rendered doubly interesting, owing to the statements of the Minister of Hacienda, respecting the Pellegrini loan, and the National finances. Congress has ratified the Gonzalez proposal, which we regard as a great move in the right direction, and will result most advantageously for the country. The extensions of the Tucuman Railway will now be carried out more vigorously than ever, and the upper provinces will be crowded with English Engineers and enveloped in English capital. The following is the speech of Dr. Pacheco Minister of Hacienda on the bill, and will be read with interest both here and abroad:—

The Minister of Finance rose and addressed the House in the following terms:—

The question put by the honorable member for Buenos Ayres calls for a lengthy answer, explaining what amount was voted for Public Works, how much thereof has been spent, what remains in balance, and the amounts needed for the completion of the works. The public works voted by Congress, and the estimates of the extension proposed by Mr Gonsalez, represent an outlay of 59 millions, distributed as follows:—

	$ m/n
Andine Railway	2,398,000
Do Rolling-stock	1,000,000
Do Workshops	500,000
Do Improvements, this item has not yet been voted	1,000,000
Central North. Railway to Chilcas	6,803,000
Do Rolling-stock	2,000,000
Do Extension to Salta and Jujuy, sub ect of the present discussion	8,000,000
Do Workshops	1,000,000
Branch to Santiago	1,500,000
Do to Recreo and Chumbicha	2,100,000
Do Chumbicha to Catamarca	1,293,000
Do Dean Funes to Chilecito	5,000,000
Fanatina tramway	2,500,000
City Improvement, funds voted	13,931,000
Riachuelo Works, voted	6,028,000
Wharves, dredging, etc	5,050,000

The above amounts make a grand total of 59 millions. The funds voted by Congress amount to 33 millions, and a balance of no less than 26 millions remains. The outlay up to the present amounts to 26 millions; there remain 8 millions of funds voted; the expenditure that must be met yet will amount to 33 millions.

We see, therefore, that no special funds have been voted to meet 25 millions out of the baiance of 33 millions of expenditure in store.

Under these circumstances, will the approval of Mr. Gonsalez's proposal affect the negotiations that are pending? This query I can only answer by enumerating the amounts voted, spent, and the outlay that remains over. Part of the 26 millions that we have spent was raised in the 14 millon bonds placed in Europe, part was advanced in credits to the Government; both sum a total of 26 millions.

The eight millions voted, that remain as balance in hand, will only be disposable after negotiation of the present loans, which amount to 28 millions; and it must be borne in mind that only eight millions of the latter funds have been voted for the purpose, to meet an outlay of no less than 33 million dollars.

I think that the acceptance of this proposal will in no manner affect, or interfere with the negotiation of the 28 millions of bonds pending in Europe, and, in this regard, I think it right to state that up to the present I have received no conclusive details of the negotiation, and I am not in the least aware if the business will be concluded or not; nor have I the slightest inkling of the stipulations of the negotiation. It may be possible that this week we shall know if any negotiation is feasible or not; but up to the present I am in blissful ignorance.

But, let us, for the sake of hypothesis, suppose that the negotiation of the loans will be successful. I have stated that eight millions have been voted to meet an expenditure of 33 millions; 25 millions, nevertheless, would fall short to complete all these works, on the terms of Mr Gonsalez's proposal.

If with the possible proceeds of the 28 million loan we pay off the National Bank its credits and the large advances from abroad, there may remain a balance of 14 or 15 millions at least, to be applied to the public works. But, the House may be prepared to hear that perhaps 18, perhaps 20 millions will be needed. You will ask why? For the simple reason that nearly all the estimates for public works are deficient, and as the works advance, we find that additional expenditure must be heaped on the original estimates.

I think, therefore, that Mr Gonsalez's proposal clears the horizon of our finances and tends to improve their situation. It is a new system, and one that suits the country.

I know that it is based on public funds, but the treasury reaps the following advantages: first and foremost, a company undertakes the construction of the works: secondly, this company receives in payment public bonds at a fixed price, thus saving the Government the expense of placing them: thirdly, the Government pays interest and sinking funds only after the works have been opened to the public, that is to say, when the works begin to give return on their capital.

I, therefore, reassert that this proposal tends to improve the situation of the treasury and that it is a guarantee for the completion of works necessary to the home and foreign trade of the country.

This proposal clears the situation, removes many doubts and risks, and disentangles the financial knot created by these very public works. We may rely on these hopeful results, and I beg to assure you that H.E., the President of the Republic, takes this view of the proposal submitted to the House. (Great applause.)

ROUMELIAN REVOLT.

The news of this revolt has come so suddenly upon us that it is difficult to get hold of the antecedents which led to the rupture. It would seem that Turkey is doomed to lose another very important portion of her rich territory. For the moment the following is all we can give our readers about Roumelia, but if the question assumes any greater importance, doubtless we shall find in some recent publication full explanation of the causes that produced the revolt.

Eastern Roumelia was created by the Treaty of Berlin, signed July 13, 1878. It was ordered by Art. 13 of the Treaty that a State, or 'Province,' should be 'formed south of the Balkans, which will take the name of "Eastern Roumelia," and will remain under the direct political and military authority of His Imperial Majesty the Sultan, under conditions of administrative autonomy. It will have a Christian Governor-General.' By Articles 15—17 of the Treaty it was further provided that 'the Sultan will have the right of providing for the defence of the land and sea frontiers of the province by erecting fortifications on those frontiers and maintaining troops there. Internal order is maintained in Eastern Roumelia by a native gendarmery assisted by a local militia. Regard shall be had to the religion of the inhabitants in respect to the composition of these corps, the officers of which are named by the Sultan, according to the localities. His Imperial Majesty the Sultan engages not to employ irregular troops, such as Bashi-Bazouks and Circassians, in the garrisons of the frontiers. The regular troops destined to this service must not in any case be billeted on the inhabitants. When they pass through the province they will not be allowed to sojourn there.' It was provided by Art. 16 of the Treaty:—The Governor-General will have the right of summoning the Ottoman troops in the event of the internal or external security of the province being threatened. In such an eventuality the Sublime Porte shall inform the representatives of the Powers at Constantinople of the decision, as well as of the exigencies which justify it.' Finally, it was ordered by Art. 17 that 'the Governor-General of Eastern Roumelia shall be named by the Sublime Porte, with the assent of the Powers, for a term of five years.'

Governor-General.—Prince Alexander Vogorides (Aleko Pasha); appointed May 18, 1879; installed in May 30, 1879.

According to the constitution of 1879, drawn up by a national convention, and consisting of 15 chapters, with 495 articles, the legislative power is in the hands of a single chamber, called the Provincial Assembly. It is partly official, partly elective, and partly nominated by the Governor.

The official members are the chief judical and ecclesiastical dignitaries, to the number of nine; the elective members numbering 36, and the nominated 10. Half of the elected members vacate their seats every two years. The electoral body consists of all men of Roumelian nationality who are of full age and possessed of a certain property qualification, either individually or through their parents. The minimum age of candidates for election is 25, but otherwise their qualification is the same as that of electors, public functionaries being excluded. The assembly meets annually on the second Monday in October, at the capital.

During the administration of Eastern Roumelia by Russia, till the end of March 1879, a reserve of 12,000,000 lei, or £480,000, was formed, and handed over to the new government, to be expended in the execution of public works. It is estimated that the public revenue in future years will amount to 22,606,000 lei, or £904,240, per annum, and the expenditure to 21,000,000 lei, or £840,000, leaving an annual surplus of 1,606,000 lei, or £64,240.

AREA AND POPULATION.

The boundaries of Eastern Roumelia were fixed by Art. 13 of the Treaty of Berlin, as follows:—'Starting from the Black Sea, the frontier line shall run from its mouth along the valley of the stream, near which are situated the villages of Hodzakioj, Selam Kioj, Aivadsik, Kulib, Sudzuluk, crosses oblique the valley of Deli-Kamcik, passes to the south of Belibe and Kemhalik, and to the north of Hadzimahale, after having crossed the Deli-Kamcik at a distance of 2½ kilometres above Cengei, reaches the crest of the mountains at a point between Tekenlik and Aidos-Bredza, and follows it by the Karnabad Balkan, Prisevica, Balkan, Kazal Balkan, to the north of Kotel up to Demir Kapu. The frontier passes by the principal chain of Great Balkans, which it follows throughout its whole length to the summit of Kosica. At this point the western frontier of Roumelia leaves the crest of the Balkans, descending southward.

The area of Eastern Roumelia is estimated at 13,500 English square miles, and the population in official returns of the year 1880, is stated to amount to 817,513. Of this number 573,231 are described as Bulgarians, 176,759 Turks, 42,516 Greeks, 19,524 Gypsies, 4,179 Israelites, and 1,306 Armenians. The city of Philippopolis, the capital, contains 24,503 inhabitants, of whom 10,909 are Bulgarians, 5,558 Turks, 4,781 Greeks, 865 Gypsies, 1,134 Israelites, and 806 Armenians. Agriculture is the chief occupation, but it is in very backward condition, and there is scarcely any trade.

The Galicia's Mails.

It is stated in Vienna that, as the result of the meeting of the Emperors at Kremsier, a complete understanding has been arrived at between the two monarchs.

Our Madrid Correspondent telegraphs that public opinion is every day more opposed to arbitration with regard to the Caroline Islands which is feared might be adverse to Spain, as she has so long neglected to occupy them, although the Spanish Parliament has voted supplies for that purpose. Our correspondent in Berlin telegraphs that official people there continue to display much equanimity with regard to the excitement in Madrid, which is chiefly attributed to the influence of the Spanish Ministry, desirous of distracting public attention from domestic matters. Another semi-official German Note has been published with a view to show that Spain has never exercised any sovereign rights over the Caroline Islands.

Our correspondent in Alexandria telegraphs that a great deputation consisting of several thousand Europeans waited last night on the Khedive to thank him for his efforts in connection with the payment of the indemnities. About 20,000 persons took part in the demonstration.

Sir William Harcourt having been asked by a constituent his intentions regarding disestablishment, writes:—I must make the reply which I have always given to similar invitations since I have been in public life, viz., that I must decline to give specific pledges on particular questions. To do so is, in my opinion, not advantageous to the freedom of action of members of Parliament. The course I have taken in political matters is well known to my constituents at Derby, and I must leave it for them to decide whether they regard me as entitled to their general confidence."

An important pastoral, bearing the signatures of the president and secretary of the Wesleyan Conference and addressed to the Methodist societies, was issued yesterday morning, and will be read in the leading Wesleyan congregations throughout Great Britain. It deals largely with the present spiritual condition of Wesleyan Methodism, and, while recognising the wide and varied range of Christian service in which, as a Church, it has been permitted to engage, deplores the disproportion between the number of new members received during this year, and the net increase reported at its close.

Yesterday a meeting convened by the churchwardens of St. Mary-le-Strand took place at the Board of Works, Tavistock-street, for the purpose of protesting against the vending of indecent publications in the Strand, and to consider the best steps to be taken for the suppression of the evil. Resolutions were passed declaring the sale of such papers to be an injury to the traders of the neighbourhood; and that as the police could not remedy the nuisance a Bill in Parliament should be promoted to give the local authorities the necessary power to keep thoroughfares under their control free from obstruction and offence. Amongst those present were Mr. S. H. Freeman, Mr. Passmore Edwards, M.P., the Rev. G. Hawkins, and Mr. J. Diprose.

At Kennington Oval yesterday a match between Surrey and Yorkshire was commenced. Surrey went in first and scored 187. At the close of the day's play Yorkshire had scored 14 without losing a wicket.

George Thomas Croft, alias Clark, a member of the Salvation Army, was yesterday remanded from the Thames Police-court on a charge of stealing 9s 6d., the money of Mr Sergeant, the superintendent of the Tower Hamlets Shoeblack Brigade, his former employer. The accused denied that he had ever been in the brigade, but two witnesses swore to his identity.

Yesterday afternoon the half-yearly ordinary general meeting of the Metropolitan District Railway Company was held at the Cannon-street Hotel, Mr. J. S. Forbes in the chair. The report, which showed that a dividend at the rate of 2 p. cent per annum could be paid on the Preference Stock was adopted, as was also a resolution calling on the directors not to undertake any new works or extensions without consulting the shareholders, and in favour of amalgamation with the Metropolitan.

The stock markets were weak for home stocks yesterday morning on the harder tendency of the discount market, but showed some recovery at the close. American securities were buoyant on fresh buying here, and Grand Trunk of Canada stocks were also considerably better, but Mexican Railway issues were flac. Foreign Government securities were steady but quiet. Consols declined ⅛ p.c., to 100⅛ to 100¼ for money, and 100 3-16 to 100 5-16 for the account. There were no bullion operations at the Bank.

Dublin, Thursday Night.

An incident of a most unpleasant nature occurred at the Kildare-street Club yesterday. Two members—one a a gentleman—the owner of considerable landed property in the West of Ireland, the other the son of an eminent Irish Judge—had a warm dispute, arising out of the relations of the latter gentleman with the wife of the other. Words were followed by blows, and the quarrel ended by the judge's son receiving several blows from a horse-whip that the gentleman first alluded to carried with him. The attack took place in the presence of several gentlemen, who at this point interfered and separated the combatants.

The trial of the City of Dublin Steam Packet Company's new mail steamer Ireland took place to-day between Kingstown and Holyhead. There was a large number of distinguished persons and Government officials on board, including the Secretary and Comptroller of the Dublin Post-Office. She made the passage from Kingstown Light to the South Stack Light in 2 hours and 46½ minutes. The performance was considered very satisfactory. The sea was rough.

The Earl and Countess of Carnarvon visited the Horse Show today and witnessed the jumping competition.

THE ENGLISH LITERARY SOCIETY.

The annual meeting of the members of this flourishing association will be held this evening at the Rooms 212 Calle de la Reconquista (entrance in Calle Corrientes). We have been favored with a copy of the Tenth Annual Report to be presented at the meeting, and observe that 114 new members have been enrolled during the past year.

The Financial Statement shows a balance of $1190 m/n cash carried to next year, and we note that the Society possesses the sum of $4250 in Cedulas. The Library numbers 2477 volumes, and the list of members shows the gratifying figure of 428.

The able Committee, with Professor Pressinger as leader, has done some good, sound work and maintained the popularity of the most worthy Institution in Buenos Ayres.

Five members of the present Committee retire this evening, in accordance with the Rules, and it will be necessary to elect five gentlemen to replace them. Messrs Martin, L. Munro, and B. Dreyfuss stand for re-election, and among the new candidates we notice some likely and useful names. Mr. Duncan, M. Munro, the genial and popular sub-Manager of the Ensenada Railway, is a representative man, and would be certainly a valuable acquisition to the Committee; therefore, we trust to see his candidature well supported.

Mr Herbert Crabtree, another railway man, has essential claims to support, and would be the right man as Director of Entertainments. Mr Crabtree has figured prominently in entertainments given by the Society, and the members should not loose the chance of securing an able assistant in this Department, especially as Mr. Cecil McKean now retires. We also notice the name of our old friend Mr. J A Bennet, a man of business habits, and sound reasoning; a great reader, and, therefore, well fitted to the Society's aims.

We trust to see continued interest shown in the Literary Society, and take this opportunity of wishing it every future success.

THE SHOOTING MATCH.

Dear Mr. Editor,

Who can describe the delightful sensation one experiences on a bright Spring morning starting in a train, bent on amusement. The car was well filled with merry folks whose beaming countenances told of anticipated enjoyment. We reached Zapiola at about half past ten, and on the way to the station we were met by several of the members of the gallant Gun Club gorgeously equipped and mounted on thoroughbreds, a sight never to be forgotten! It was simply bewildering, so much so that some of us girls had to look another way, much to the disgust of the members. After breakfast the shooting commenced and we girls enjoyed the sport, cruel though it was. Mr W Casey won the prize.

The estancia house was beautifully decorated, especially the corridor which was carpeted and hung with curtains; the walls beamed with suitable mottos, one I know meant 'A hundred thousand welcomes;' the pillars were beautifully entwined with ivy and different coloured camelias. I fear I cannot do justice in describing the banquet and its merriment, all the witty sayings or the sweet poetry recited as well as composed by Consul Baker. I can only say it was delightful, but we girls enjoyed the dancing most which began at 10, and ended at 6 in the morning. I think I only echo the general feeling in saying that the hours flew only too quickly and none of us welcomed the dawn of day.

Stella.

EDITOR'S TABLE.

The Roumelia question is the great topic of the day. Everyone discusses the probability of a war, and, as the matter is one of such great interest, we give our readers in another column some few mems, about Roumelia that will throw some light on the question.

Yesterday, the two large views of La Plata, drawn by our talented countryman Mr Thicke, were presented to Dr. Dardo Rocha, at whose house they can be seen.

The funeral of Dn Carlos Urioste took place yesterday afternoon and was very largely attended. Deceased, some 20 years ago, was one of the most fashionable men of Buenos Ayres, and was for many years President of the Progreso Club. For the last few years he has been in declining health, suffering from a softening of the brain. His estancia in Areco is one of the finest properties in the country. He died at the age of 62 years.

We have received by the Galicia's mails further advices about President Cleveland's decree, levelling the fences of the Ranch Companies in Texas and other frontier parts. We shall publish the paper in a few days. We have also received letters from an apothecary in Edinburgh, and a lumber merchant in the U. States, asking for information about the country and people; and another party encloses a dollar for copies of the STANDARD, to be forwarded to Texas. It is pleasant to note the increased attention paid to this country, but some of the questions put us are indeed most amusing.

Nothing could be more appetising, from a journalist point of view, than the cablegrams yesterday. The Roumelian question. Spain preparing for war. Russia sneering at England. Germany looking after France's goings on in Morrocco. Earthquake in Naples. Cholera panic in Palermo. Anything more? The general opinion is that Bismarck and Salisbury have raised the row in Roumelia. What an ass that venerable officer General Opinion often makes of himself.

There was an awful lot of sublime balderdash in the papers yesterday morning about the Pellegrini loan. If the Turk elect to fight for Roumelia, as he is pretty sure to do, Dr. P. might as well expect a loan of the moon as a copper from Baring or any other man in Europe.

A Kentucky woman gave a tramp a lick across the neck with a broomstick, and he walked 40 steps and dropped down to die. She says she didn't mean to hit so hard, but for the moment thought she was striking at her husband.

The row at the Rochista meeting in La Plata on Sunday was just the right thing: lots of shouting and flourishing of knives and revolvers; but not a shot fired, nor a soul hurt. There was a tremendous demand for throat lozenges on Monday, as all those who had attended the meeting were as hoarse as crows.

The little unpleasantness between Mr Mi..... Latrobe (We always go within an inch of writing Microbe—beg his pardon) Bateman and the City Improvement people is said to be settled. So best. We like to see everything settled; except the weather after a too-prolonged drought.

Judge Basualdo fixed up the famous Correa will case yesterday. It has been going on for 45 years, and there are, or were, or will be, forty heirs. The whole property consists of a quinta in Calle Garay, bought in 1773 for 150 silver dollars, Dr Dardo Rocha's grandfather being the escribano who drew up the deed. In 1845 it was worth 10,000 paper dollars; in 1881 $199,000 ditto; and it is now worth $800,000 m/c. This shows the prodigious rise in the value of city property in the last four years.

The thieves and burglars are doing rather a good business just now. An oaf named Molina was relieved of no less than 1125 Nats in a Calle Buen Orden car on Sunday; and a French confectioner in Calle Santa Fe was robbed of 2700 Cedulas and 850 Nats the other morning, while he was at market buying some grease to act as butter in his pastry. Ah! Nemesis, my boy!

What a scandal it is to allow soldiers to carry knives. Two cavalry soldiers had a drunken brawl about a woman in Calle Pavon on Monday, and one of them had his heart cut in two by a ferocious stab from the other. When charged with having killed the man, the fellow answered "Do you suppose I was only playing with him?"

West Coast telegrams announce that the dispute between the Holy See and Chile about the archbishopric of Santiago is arranged. This will, happily, tend to modify the present religious excitement on the other side of the Andes.

While a Rosario watchmaker had his head buried in a "ticker" he was repairing the other night, a fellow in the street threw a paving-stone at him through the window and knocked him off his perch, making off with two Connecticut wooden clocks before the poor "relojero" recovered his senses and his feet. Neither the "caco" nor the C.w. cs. have as yet been heard of.

Particulars of the grand Rocha demonstration arrangement for Sunday next were published yesterday. The processionists will muster in Calle Callao, walk down Rivadavia to Florida, then up to Plaza San Martin and disperse. Any too ardent patriot who may give a "muera!" or "abajo!" for anybody, even for the d — l himself, will be handed over to the police.

We hear that Madame Couturier is charming as Carmen at the Eden Theatre. She is, of course, a French gypsy rather than a Spanish one, but is none the less bewitching for that.

The papers in the Interior say that it will require eight millions of National dollars more to get the extension of the Central North Railway to Jujuy. Not if Mr Lucas Gonzalez be allowed to take it in hands, which we hope he may.

One day last week in Rosario the thermometer marked 26 Centigrade in the shade. So say the local sheets; and they always tell the truth about everything except politics.

General Victorica did not start for Montevideo on Monday as we supposed. He goes to-day.

We have late Bahia Blanca papers on our Table, but there is not a word of news in them. All wishy-washy politics. Confound politics, say we.

The political war in the provinces has reached such a pitch that the wretched little sheets there pitch into each other for spelling Sabado Sazado, a gross blunder that often appears even in the papers of the capital; but we suppose it's all the fault of the printers and proof-readers, two classes of beings that can hardly have the face to expect any very comfortable quarters in the world to come, judging from their sins of omission in this.

The average number of 'sugetos' that are 'run in' nightly in Tucuman for being "o'er all the ills of life victorious" is 14. Not bad for a town of its size. The cane, the cane.

Long live the Lord Mayor! He's going to sweep away now the Retiro Barracks, and make grottoes and other gew-gaws on the site. What next. The *Prensa* gave the history of the old Retiro on Sunday. It is most interesting: In the year 1703 the whole Plaza San Martin was an open quinta that belonged to an old duffer named Riblos. In 1800 there was a ball-ring on the site. After that The Royal English Company bought it, and it was called the Retiro de los Ingleses. After that it was nothing in particular till it drifted into a Plaza. Not twenty years ago no one dared to cross it at night, and most of us old residents can remember all the crimes of violence there committed. Even ten years ago it had a bad name. It is now semi-civilised; still we would far rather be in bed than crossing it at 2 o'clock in the morning.

EDITOR'S TABLE

(Continued from 1st page)

The weather was awfully nice yesterday at daybreak, and there was a pleasant nip in the air. The tram-cars fill now at a very early hour. It will take many long years of civilization to eradicate in this country that relic of barbarism, early rising.

There was many a smile yesterday at the War Office note about the recent duel. Of course we all know what a "sumario" means in this quarter of the globe. We rather like a "sumario", as it puts a polite official stopper on any and every unpleasantness.

John Howard Payne, it is said, wrote "Home, Sweet Home," while sitting beneath the entrance lamp on the steps of a nobleman's mansion in London, where his theatrical ventures having failed, he found himself without a shilling to pay for his bed.

They have had a tidal wave at Iquique, we see. It must have been a very poor one. Not a soul drowned, nevertheless it caused much damage.

There seems to be a rather general impression that the grand Misericordia ball on the 26th won't be such a rough-and-tumble affair as that at the Bolsa, and that one may venture there with a very old topcoat, and a shocking bad hat, with some chance of seeing them again when the dance is over. The La dies' Committee are most careful in sending out inv tations, so the chances are there will be no overcrowding.

Mrs Ascencion Linares, the pretty Spanish zarzuela actress, has turned the heads of all the mashers, young and old, in Salta (What an object a Salta masher must be!) The newspaper reporters also seem to have fallen in love with the lady, a most unreporter-like proceeding.

Bravo! the Lord Mare. His Lordship has issued orders to the Board of Works not to put down any more of the big ill-cut paving stones that we have so often protested against. For the future, his Lordship says, the stones must be cut of the same size and shape as the English paving stones in Calle Lavalle, between Florida and San Martin, and in the latter street between Lavalle and Tucuman. Why Mr Alvear did not think of this before we cannot imagine. His own grand Avenida to the Recoleta is spoiled by the hideous paving stones that destroy the feet of horses and the springs of carriages. And the noise? Oh! Emir of Afghanistan, the noises Are the 5 millions of paving stone! bought the other day properly cut? We very much doubt it.

In Corrientes they have got two newspapers, one called *Paz* and the other *Administracion*. This looks like a 'goke.' They say Derqui is turning over a new leaf. This *must* be a joke.

Our colleagues are still harping on my daughter—the "Sucesos de Catamarca." Bother the same 'sucesos.' They seems to be going in up there for that old, threadbare political joke 'Camarias dobles.'

Generals B. Mitre and Sarmiento, and a lot of other gentlemen called on President Roca on Saturday last and obtained his promise to send a message to Congress about erecting statues to Rivadavia and Moreno in Plaza Mayo.

The "pensionistas" are not content with worrying Congress every day of the session, but some of them have had the sublime audacity to ask for the increase of the amount! This straw has broken the camel's back, and we rejoice exceedingly to hear that a Bill will be brought in this week by a private member to cut down all pensions by 50per cent. It is generalal believed that the State is grossly befooled as respects lots of pensions that expired years and years ago. It is time to let daylight in on this abuse.

A mother writes that her little girl, seeing her father tap maple trees, asked—"Why not tap apple to get cider?" That would only be like a great many people who, in their haste to arrive at coveted results, are perpetually attempting to anticipate the processes of nature.

The Lord Mayor promulgated the Boulevard Law, sanctioned by the Concejo yesterday. There is no hope of escape now. Wont the squeeze for houses and the rise in rents be skinning before long?

Mr. Ourubia's new drama "Sin Horizonte" does not meet with much favor from the critics, although it is based on that miserable threadbare theme, violation of the marriage vow. From what we read of it in the papers it seems a wretched production.

Japan is better off than this republic as it will resume specie payments on the first of January, 1886. It is stated that the amount of paper money outstanding is now about 120,000,000 yen, the yen being equivalent at the latest official valuation to 85.8 cents of United States money.

Our esteemed colleague the *Buena Lectura* stands up for allowing one Lottery, for the support of the hospitals. It is the abuse not the use of lotteries that leads to so much evil.

The Catholic and Conservative party in Chile has won a considerable victory by having a majority (amongst them Mr. Walker Martinez, the leader of the party) on the joint Committee of both Houses that attends to important affairs of State while Congress is in recess. Mr Martinez is the public pet of ladies of Chile, who lately presented him with an address, for defending the Conservative cause so vigorously in the Chambers that he was turned out by force.

First married lady.—"Then your husband has forgiven you for having had a letter from Lord R——, my dear?" Second married lady—"Oh, yes. You see he pardoned me, he said, because it was the very first time he had found me out doing such a thing!" First married lady—"What an amiable man! Now my tyrant positively refused to forgive me until he found me for the fourth time!"

Judah P. Benjamin, the popular Queen's counsel, knew how to charge clients, and often described with a relish his plan for making a bill. 'First,' he said, 'I charge a retainer; then I charge a reminder; next I charge a refresher; and then I charge a finisher.' He was exceedingly liberal, and had no love of money for money's sake. Some less scrupulous lawyers charge a 'finisher' to begin with.

Italy's turn now! A *Pall Mall* business has turned up in Venice or Rome or somewhere. It's well that John Bull is not alone in this dirty mess. At first all the other boys in Dame Europa's School felt rather inclined to point at him as no better than he ought to be; and thanked heaven they were not like him. All bosh boys! There is not a pin's point difference between the lot of you in this respect; but in all others old John towers over you, and always will.

Important Notice.

I hereby advise the public that I have established a Gymnasium Institute at Calle Florida 406 where I also apply the MASSAGE SYSTEM as studied and practiced at Dr. KELLGREN'S well known institute in London.

This system has given the most surprising results in curing chest and lung complaints, and all maladies caused by the kidneys and joints, and in any way connected with the nervous system. Thus the celebrated SYSTEM of MASSAGE is recommended as a certain cure for rheumatism, asthma, undeveloped muscles, paralysis, disorders in the digestion and in the circulation of the blood, etc., etc.

I have also a special class for the development of the body and muscles.

The following is the time-table I have arranged for the application of the Massage System:

For Gentlemen 8 a.m. to 10 a.m. and 3 p.m. to 5 p.m.

For Ladies 12½ to 2 p.m.

Consultation hours—11.50 a.m. to 12.50.

Patients can also make arrangements for the application of the Massage System at their own residences.

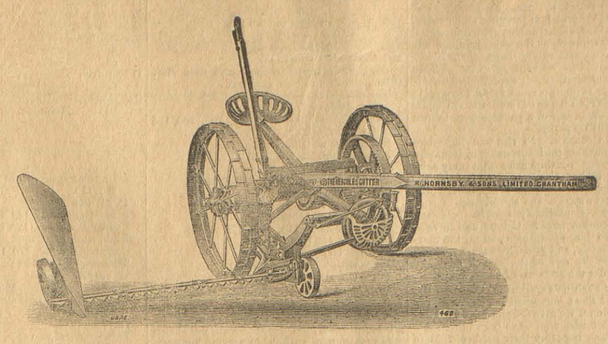
HERCULES MOWER AND FERN CUTTER



his machine has been specially designed for the Colonies and other new countries, for cutting strong thistles, fer and light scrub on rough land, and has been most successful in Autralasia and South America. It has very high wheels and is of great strength combined with lightness in draught.

The cutting apparatus consists of 2 sets of knives, one set fixed to the Bar in place of the Fingers, and the other driven by the Crank plate and connecting Rod in the usual way.

The unanimous verdict of all who have worked this machine is that it is the

Gold	38.80 o/o prem.
Cedulas F	80½
Cedulas G	87¼
Nat. Bank Scrip	100¾

A bullish gale swept the hall to-day, upset the bearish boat, and drove the premium to 39 o/o, before operators had time to survey the market and prepare for the unexpected revulsion in the speculation. There was a breezy atmosphere round the ring all morning and brokers felt the premium jumping under them. Bearish outsiders stood aghast and clung to the railings for support as the gold premium advanced under the strong impulse of dealers who secured large amounts on time. There was a concatenation of deplorable circumstances that favored a rise in gold to-day, in spite of the fond hopes of those who see in Dr Pellegrini the bearer of a panacea to put down gold and put up paper.

The main cause of the rise was our cablegram, announcing the insurrection in Roumelia and the many contingencies that may arise from this rather unexpected revival of the Eastern question. Merchants and others, who are perfectly aware of the significance of such a movement, immediately bought gold and secured large amounts for October and November. These large purchases put up the market immediately, and prices for cash, for Saturday and for the end of the month advanced rapidly under the pressure of the demand.

Minister Pacheco's speech in Congress last night burst like a bombshell at the ring. In another column we give the words of the Minister. The bears, who have been lulled into such buoyant hopes by their implicit faith in Pellegrini's success, were hurled from a considerable height of fancy's region, and suffered a rude awakening when reading Dr Pacheco's candid statement that he knew absolutely nothing with regard to any negotiation with the London or Paris bankers. The deception in the bearish camp was bitter, but the leading bears refuse to believe that their castle of cards has crumbled, and, as he that's convinced against his will, are of the same opinion still. Speculative fancy is so actively at work at the present moment, not only in the hall, but in the columns of the newspapers, that the very best policy to pursue is to believe nothing and to wait for the solemn evidence of facts. The financial orchestra will strum away at a furious pace for the next few days, and all will have an opportunity of witnessing how far ingenuity can go and how deep investigation can plunge to rake up the ins and outs of the financial situation, the doings and undoings of the National Commissioner, his hopes, state of mind, movements and appearance. All this will be greedily absorbed by the market.

It is always well to remember that whilst the majority opine that Dr Pellegrini returns 'sans' money, 'sans' contract or any basis of negotiation, there are many well-informed parties who are convinced that he brings with him the basis of a new arrangement that will be successful, as the pretensions of both this Government and the Syndicate are settled to mutual satisfaction. It is also surmised that Congress will be asked to make some amendments in the original loan bills, which, if carried, will immediately settle the matter and remove all difficulties in the way of a negotiation between the Government and the Syndicate. The great point arrived at is to draw up a contract that need not be submitted to Congress for ratification, and there are straws that show the probability of this being successfully achieved.

About two hundred thousand gold dollars changed hands for cash at the ring; the market opened at 37.80, a slight advance on last night's closing rates, advanced rapidly to 39 rose to 39.20, but closed at 38.80. One hundred thousand dollars were sold for Saturday; rates opened at 38.30, fell to 38.20, rose to 39 and closed at 38.70. Operations for the end of the month embraced 255,000$, operations beginning at 37.90, falling to 37.80, topping 39, and closing at 38.70. About four hundred thousand dollars were sold for the end of October; the market opened at 37 and closed at 38. Three hundred thousand dollars were sold for the end of November; the speculation began at 37, and closed firm at 37.50. The chief feature in the day's speculation was the sudden demand of gold for October and November, showing that outsiders have entered the arena. Differences in prices for the 30th, October and November were insignificant, and form a strong contrast with those paid in previous months.

In the midst of the feverish excitement of the gold speculation, stocks and shares were quite neglected. One thousand Cedulas F changed hands for cash at 80½. Operations in Series G embraced 38,000 for cash at 87¼, and 10,000 for the end of the month at 87½. The Cedula market ruled dull and weak. Three hundred Certificates of the National Bank were sold for the end of the month at 100¾. Nothing was reported in the paid-up stock.

The Provincial Bank advanced its drawing rates to-day to 33⅞d. on London and 3.55 francs on Paris and 3.56 francs on Antwerp. There is a dead-lock in operations and little life is expected in the market before Friday. Both takers and drawers are scarce. Gold exchange is quoted at 46⅞, flat and nothing doing. The money market continues pretty easy for paper as usual, but the shrinkage in gold is becoming more pronounced. The banks refuse to give out any gold, and this is not to be wondered under the circumstances. Paper is also becoming scarce, but the effects are not yet felt.

The following is a summary of operations effected this morning at the ring during official hours:—

Gold—

Sales, 1,228,640
Cedulas—

National Bank Certificates, 70 o/o paid—
For Sept. 30th 300 at 100⅜

It was remarkable to note that the exchange operations of the Provincial Bank failed to keep down the premium to-day. Although small amounts only are ostensibly drawn at 3.55 for, and 33¾d., some brokers took large amounts at these rates from the Bank, and the gold showered in the hall in the afternoon showed that the Board of the Bank had been liberal. If the Bank continues drawing at these rates in a steady manner, a rise in the premium on gold cannot be long-lived, but the probabilities are that the Bank will not attempt to oppose the current of the speculation. The rise in the gold market this morning was not speculative, as it arose from the demands of outsiders for the next two months.

Members still complain of the telephone service in the hall. Two Pantelephones have been put up, but the Secretary should hasten the fitting of the Gower Bell apparatus also. It is incredible what a deal of business is transacted by telephone, and we doubt not that the Secretary will attend to these complaints immediately.

About a million gold dollars were sold during afterhours at advancing prices. The exchange taken from the Bank was thrown on the market, but the premium continued to advance steadily. The following business was reported this evening:—

200,000 $ for to-morrow and Saturday at 39 to 39½.
400,000 $ for the 30th at 39 to 39.60.
300,000 $ for October at 38 to 38¾.

The gold market closed firm at 38 40 for the end of the month, and 38⅝ for the end of October.

We hold over for our next issue a lengthy list of packages saved from the cargo of the Hermes.

Dr Pellegrini will land in this city on Saturday morning. On arrival at Montevideo he telegraphed to the President of the Republic. Some parties state that he will be here on Friday evening, as there is an idea of sending a special steamer to hasten his arrival.

European telegrams, received to-day, state that the Bulgarian Government has addressed a circular note to all great Powers, announcing formally its determination to annex Eastern Roumelia to Bulgaria. The next news will no doubt be a Congress at Vienna or Berlin to settle the sick man's fresh infirmity.

Advices from Belle Ville, old Fraile Muerto, announce that both camps and cattle are in splendid condition after the late heavy rains. It has rained also heavily in the South of Santa Fe and nearly all over this Province.

We take the following from the *Daily News*, under date London 28th ult.:—

"A harder discount market was reported on all sides to-day, and brokers have not shewn readiness to take on bills, of which, however, the supply is very small. This is affected by the change in the speculative account on the Stock Exchange, as well as by the attention given to the American exchange, which after remaining stationary for some time, has lately been drooping, and is nearly down to the point that will admit of gold leaving this country, the 60-day rate being 4.84. A further drop of about 1 cent would, under a continuance of present conditions, remove gold from this side, but there would be no profit at this rate on shipments in the ordinary course. The brokers' rates to-day for discount were 1⅛ o/o for two and three months' bills, 1⅛ for four months' paper, and 2⅛ to 2⅜ for six months. At the Bank there were no gold movements. The Shannon left to-day for the East with £16,000 in bar silver for Calcutta, £18,700 in dollars for Penang, and £10,000 in dollars for Singapore. The silver market was firmer for bars, at 48¾d per oz., but dollars were unaltered at 48 7/16d. Foreign stocks have shown little general movement, but the tendency has been firm. Egyptian are slightly firmer, as well as Turkish, but Russian and Spanish 4 o/o are rather easier. San Domingo Bonds have advanced 1, to 15, 17, and Peruvian stocks are ⅛ higher, in view of an early distribution of the funds in the hands of the committee. The new Chilian loan is to be about £800,000.

The returns of the Custom House yesterday amounted to 90,000 m/n. The receipts for the last twenty two days amount to 1,400,000 m/n in round numbers.

The following is the working of the Andine Railway for the month of July:—

Gross returns	95,983.08 m/n
Expenses	46,435.65
Net returns	49,547.43 m/n

Expenses stand at 49 o/o of the returns. Kilometres working 767. Working per kilometre is as follows:—

Gross returns	125.14 m/n
Expenses	60.54
Net returns	64.60 m/n

A WORD OF WARNING. TO PROTECT the public, and prevent them from being imposed upon by the worthless counterfeits and imitations of our MURRAY & LANMAN'S FLORIDA WATER, we have prepared paper in which the words "LANMAN & KEMP, NEW YORK," appear in pale letters when a leaf of the little pamphlet is held up to the light; and whenever FLORIDA WATER is offered for sale wrapped in a pamphlet that does not have this water-mark or stamd in it, then it is counterfeit, and should be rejected.
